WHEELING IN THE LEAGUE.

Mr. W. B. Howell Buys the Springfield Franchise and Players for \$1,000 - "Pop" Lytle May be the Club's Manager.

To the energy and faith in Wheeling as a base ball town exhibited by Mr. W. E. Howell this city owes it that she is restored to a position on the map o professional base ball. Last week he attended the meeting of the Inter-state attended the meeting of the failed league magnates at New Castle and made every effort possible to secure a berth, but as is well known, the two doubtful clubs. Springfield and Fort Wayne, were represented, and Wheel-ing was left out in the cold after the owners of the other clubs, had encour-aged Howell in the belief that he would

get in.
But the Wheeling man was not to be But the Wheeling man was not to be downed, as the subsequent developments have demonstrated. He arrived home from New Castle on Wednesday evening, a day after Glasscock and Niehol returned, and when he was seen by the Intelligencer man that night he winked his other eye while admitting Wheeling had been dumped. Two strangers accompanied Mr. Howell home, and when the reporter asked who they were, he was told conflidentially that they were President Edward S. Hauck and Trustee Julius Stern, of the Springfield club, and further, that negotiations were on for the purchase of the Springfield franchise and players.

of the Springfield franchise and players.

The negotiations ran through Thursday and up to an early hour yesterday afternoon, when terms satisfactory to both sides were agreed upon. For a casn consideration of \$1,000, Messrs, Hauck, Stern and Ridgeley, the three trustees of the Springfield club, executed a bill of sale of the Springfield franchise, twelve players under reserve, balls, bats, masks, uniforms and "good will" to Mr. Howell. The money was paid over to the Springfield men yesterday afternoon after Mr. Howell had called up President Charley Power, of the league, over the long distance telephone and learned that Messrs, Hauck and Stern were empowered to make the sale. The news soon became known throughout the city, and Mr. Howell was overwhelmed with congratulations throughout the city, and Ar. Howen was overwhelmed with congratulations and good wishes of the fans, who are now apprised of the fact that Wheeling now apprised of the fact that Wheeling will again be represented in the fast inter-state after a year of obscurity which was extremely distasticful to them. Undoubtedly the club will receive liberal support, and with anything approaching good luck the club should score a financial success this year.

Mr. Höwell has already arranged for the eccupancy of the Island park on the line of the Wheeling Railyway Company, built by that corporation last spring for the short-lived Ohlo league club. He is also figuring on the possibility of playing Sunday ball, but nothing definite along that line has yet

cino. He is also figuring on the possibility of playing Sunday ball, but nothing definite along that line has yet transpired. If Sunday ball can be played here, the success of the cub is assured beyond any doubt.

The Springfield people left for home yesterday evening, well satisfied that they had unloaded their base ball holdings, but it is likely they will be met with reproaches thick and fast upon their arrival at Springfield. The people there have the insane idea that their form is capable of supporting a ball tear, but after last season's magnificent team and disastrous financial showing it is difficult to see how they can cling to the idea—but they do.

The Springfield team is one of the best of the eight fast teams in the league. It began the season, last year at a merry cilp, and was, in the lead nearly half of the entire season, and finished in third place. Dayton being for an interest the dear the content of the

Ashenback going to New Castle. He is a good catcher and a strong hitter. There are four pitchers; and all of them are good ones. Edward Poole, one of them, made his professional debut in 195 with Zanesville, of the Ohio-West Virginia league. When that league disbanded, Coyle's Wheeling club went after Reisling, Poole and Bradley, and succeeded in getting Bradley and Reisling, but Springfield was a little too suick so far as Poole was concerned. He pitched great ball for Springfield in 35 and 398. Another pitcher is Jack Dolan, an old leaguer, who was very much on earth again last season with Springfield; he has pitched for St. Louis, Boston and other big league clubs. Jake Wells, the third twirler on the Springfield reserve list, is a youngster who was said to have been the best pitcher developed by the Inter-state last year. Creat things may be expected of him this season. The other pitcher is A. C. Crabill, a graduate of the Ohlo North-western league of 1857; he pitched good ball the fore part of '39 for Springfield, and should be a comer now.

THE PLUCKY SWEDE Continues in the Six-days' Race Minus

Money or Care. SAN FRANCISCO, Feb. 17.—Although ninety hours on their journey the riders in the international six day race at the Mechanics Pavillon show wonderful freshness. Averages to-day of 18 to 19 miles an hour for long periods were nothing strange.

miles an hour for long periods were nothing strange.

Oscar Julius, the Swedish tall-ender to the line of thirteen men, was the hero of the day. Julius was seat-sore and sick last night. He went to bed for a long sleep, and while in the land of Nodhis trainer walked away with his money and valuables. To-day when about to quit, Julius decided that he would finish and save himself the name of being a quitter, although unable to get inside the prize list at all. Julius, with no trainer, nothing to eat and no care at all, dressed and came on the track. John Lawson's brother took care of him then, and he started pacing the bunch. In the ninety-first hour Julius carried the party along nineteen miles and two laps. In the hour Gimm freshened and hung in the line which lapped Miller again and again. The champton was evidently in distress and it is expected he has a very troublesome knee. Gimm counts upon being again in the lead before another day has passed. Albert and Hale continue their wonderful plugging. None of the riders to-day shows the slightest signs of being demented. Nawn, who was delirious yesterday, started to-day to kill loff his field and for hours in the early part of the day, he did 19 to 20 miles an hour regularly.

This title of comedy belongs properly to plays like, "Other People's Money!" which will be seen at the Opera House to-day, matinee and evening, with Hennessy Loroyle in the principal character, a play that is full of funny seenes, that engenders wholesome infectious laughter, that has a wealth of complications that arise naturally from the working out of a story with a well defined plot and counter-plot. In other words a play full of characters, clearly defined; episodes and scenes that evoke merriment in the auditor; legitimate laughter, created by purely legitimate means. It is upon these lines that this play was written and it is on this foundation that the success it has attained during the past of comedy belongs properly to plays like,

The great protection against that hidden for, disease, is Dr. Pierce's Golden Medical Discovery. It protects the vulnerable points, the stomach, lungs, liver and blood. When the blood is in a healthy condition, disease germs cannot find any permanent lodgement. When the stomach is sound and strong the life is sound and strong also. Dr. Pierce's Golden Medical Discovery is not only the best medicine for impure blood, weak nerves, weak lungs and weak stomach; but is a strictly temperance preparation. No alcohol or whisky in it. No syrup or sugar either. Still it retains its curative powers perfectly in any climate. Dr. Pierce invites you to counsel with him by letter free of all cost. A WEEK OF OPERA. Musically inclined, Wheeling will have

an excellent opportunity of enjoying a week of magnificently rendered opera with the return engagement of the acknowledged leader in operatic productions, the Boston Lyric Opera Company, on Monday, February 20, with matinee on Wednesday and Saturday, at the Opera House. The different productions of this company are given in a manner that can be termed 'simply superb'—every detail as to costuming, senie and every detail as to costuming, scenic and calcium effects, and general appoint-ments are attended to with the greatest care. No expense is allowed to stand in the way of a magnificent and finished performance. Popular prices will be in order, 25, 35 and 50 cents. It must not be understood, however, that with pop-ular prices cheap opera will be in or-der for mathlerical. der, for nothing is further from the facts. The production will be given on the same scale of magnificence as though high prices were demanded.

looking for a break-up for several days. The coal operators are more apprehensive about the craft at down-river points than they are at Pittsburgh and in the pools of the Monogahela. There is not so much danger in the upper valleys. Rivermen look for the small streams emptying into the Unito let go first, and if this should be the case no great amount of damage would occur to down-river craft.

This morning W. H. Brown's Sons ordered the Cruiser to break the ice in the first pool, and she was assisted by the Volunteer, of the Brown line, and the Cliffton, owned by C. Jutie & Co. The Cruiser has a steel hull, and she made the ice fly. The ice is from six to ten inches thick. The Acorn and Nellie Walton are breaking the ice in the second pool. This is being done at both places to relieve the floating craft, and make them more secure from the danger of a break-up. The Isaae M. Mason was breaking the ice yesterday at Brownsville.

The usual treatment has been some simple ointment or salve which sometimes give temporary relief, but nothing like a perimanent cure can be expected from such superficial treatment. The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, bilind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.
